

Good Afternoon all local Registrars: The templates to issue certified copies of marriages have been modified and posted on our website as REG-42 F (1) and REG-42 F(2). They are password protected with the same password you are using for the other marriage forms. Please start using them immediately. We have also updated and uploaded the Marriage Application, REG-77.

What type of "paper" will be supplied for use with the REG-24X? carbon or carbonless? and will it be 4 parts? **4 part, Kathy sending out today.**

Will the updated REG-23 and REG-24 forms be carbon or carbonless? and will they be 4 parts? **23 will also be a template. We are doing some 23 and 24 in carbon, but that will take some time.**

The REG-24X template does not indicate it is a Certificate of Marriage at the top of the document, should there be a heading? **The paper that Kathy is sending has that on it.**

The current REG-23 for Remarriage is not applicable to same sex remarriages, will a REG-23X template be created and sent out for use? **Yes.**

The updated REG-77 application, item #6, Domestic Status does not include current civil union partner, should it? **You can write that in by hand.**

The updated REG-77 does not ask the questions to be included for items 19a, 19b, 28a and 28b on the REG-24X, what should we do? **You should complete all that apply to each person.**

Is proof required to show dissolutions of civil unions or terminations of a domestic partnerships when applying for marriages? **If you asked for divorce decrees opposite sex couples, then you can, if not you cannot.**

If there is a current domestic partnership and the couple want to enter into a marriage with the same partner, do they need to terminate the domestic partnership before applying for a marriage license? **Still waiting for guidance on this.**

If there is a current civil union and the couple want to enter into a marriage with the same partner, do they need to dissolve the civil union before applying for a marriage license? **Still waiting for guidance on this.**

If either applicant was previously registered in a domestic partnership or a entered into a civil union and neglected to legally terminate or dissolve it when the relationship ended, must they terminate that domestic partnership/dissolve the civil union before they can enter into a marriage with someone else? **Same as above.**

If the couple were previously married in another state, is the marriage now recognized by the State of New Jersey? **Same as above.**

- Reg 77 does not have a box for current civil union. **Yes, we missed that and need to change that today.**
- What happens if a couple had a marriage in another state and now wants to get married in NJ? **They would do a marriage in NJ.**
- Do we handwrite on the marriage license that the couple has a current civil union since we do not have current forms. **All the forms have been updated on our website, so you should be good.**
- will all the registrars be getting the correct forms by UPS or must they request them? **We are trying to get them out to everyone, but it never hurts them to request them also.**
- On the website the correction form and the marriage license form asks for a password? Are we able to get this password? **OVSR in all caps.**
- Just to clarify – we are no longer issuing civil unions correct? **CUs are still on the books, so yes, they can still be issued.**
- The reg 77 I have is the same as the one on the website I believe – therefore I have used it. Should I cross out former and write in current civil union? **Yes.**
- If you are married in another state – would it not be a remarriage in NJ? **Waiting for verification from the AGs office on this.**
- The reg 24 is not accessible for me – do I use the current form I have? And type in current civil union? Or will the forms be arriving here before Thursday morning? **The 24X is on the website and Kathy J. will ship you out the blanks via UPS today**
